CREATE SUCCESS THROUGH SOLUTIONS.

MAKE PROGRESS.

ESIS Global Risk Control Services, the risk management services company of the ACE Group, is an industry leader in the environmental, health and safety fields. Our professional consultants work in the property development and built environments every day, protecting the value of our client's assets. Our LEED Practice Group offers that same professional consultation to the construction and real estate industries, with specific expertise in Brownfield Redevelopment environmental consulting, Indoor Environmental Quality, and Sustainable Site Development services.

Ask about our services in helping you obtain the Sustainable Sites - Brownfield Redevelopment Credit 3 (New Construction and Major Renovation Version 2.2), and our testing services supporting baseline indoor air quality testing and laboratory analysis for Indoor Environmental Quality - Construction IAQ Management Plan Credit 3. For more information on ESIS Environmental products, contact Frank Westfall, Vice President at 856-755-6032, Francis.Westfall@esis.com or visit www.esis.com.
